

Questions of young people are at the origin of each of the *DeoQuest* initiatives. The printed and online material is used by people of all generations to find answers to their questions and grow in faith. Started in the Netherlands by Father Michel Remery and a group of young people, today the *DeoQuest* initiatives are used around the globe by individuals and schools, parishes, families, and communities for faith education, youth formation, adult faith discussion groups, preparation for the sacraments, etc. The global success is largely due to the attention paid to the questions of the users and the intention to help them reason through the answers rather than just providing pre-cooked answers. From the beginning in 2014, technology has been used to do this.

Books

Argumented answers inviting readers to listen, think, pray, act on their own

In total more than 400.000 copies in over 30 language editions

Find answers to your questions
